Dear Sir or Madam,

Below is a revised Operations Plan tailored for a **Dog Day Care Service**, focusing on compliance with the City of Rockingham's regulations while maintaining a professional and high-quality standard of care.

Happy Paws Dog Day Care Services would provide a safe, enriching, and professional environment for a maximum of 6 small- to medium-sized dogs during the day (2 of them our own). The property at 1 Powis Way, Warnbro, WA, has been specifically set up to meet the needs of dogs while adhering to the City of Rockingham's regulations and the Western Australian Animal Welfare Act 2002.

This operations plan is submitted to seek council approval to operate the dog day care business from this residential property.

The plan is to accept a maximum of 4 small to medium sized dogs (usually I only take 2) to look after from 7am to 5pm Monday to Friday at my property. Offer structured daily activities, including exercise, enrichment and rest periods. Offer basic grooming if required.

The dogs would have access to indoor climatized areas and outside fully fenced areas with shade.

I would dispose of all their droppings accordingly. I do not expect any problems with noise, as there is no other house that close by.

Parking would not be an issue, as it would be only one car at the time to drop off or pick up their pooch and our driveway is big enough.

I love dogs and have done a course in dog psychology. I have been minding other people's dogs for years through the madpaws website, but only one at a time. And I do have a 5 star review there.

There won't be any signage in front of the house, and I will advertise only through word of mouth and the internet.

Looking forward to hearing from you.
